

## Top Tips

### Helping your child through Exams

The secret to doing well in exams lies in planning. You can help your child to create a clear revision plan and method of studying that will make them feel in control of their work.

- Work out a revision timetable for each subject.
- Break revision time into small chunks - hour-long sessions with short breaks at the end of each session often work well.
- Make sure your child has all the essential books and materials. (If you would like support to ensure your child is fully equipped, please contact the school)
- Condense notes onto postcards to act as revision prompts.
- Go through school notes with your child or listen while they revise a topic.
- Time your child's attempts at practice papers.
